Year 1 – Maths Warm Up Menu

Here are some ideas for warm ups before starting your maths activities. You could do these instead of or as well as going on Numbots Story Mode.

- Count to 100 (and maybe even back again, although you might have to build up to this).
- Choose a number between 0 and 20. How many equations can you write that are equal to this number?
- Play guess my shape – take it in turns with someone else in your house to describe a shape (2D or 3D), can the other person guess the shape?
- Play ping-pong number bonds to 10 – your parent can say a number and you respond with the number you add to it to make 10.
- Sing some number songs:
