Ask an adult or a brother/ sister to test you on the list above, making sure to ask you for the singular or plural version of the word. Then, use this sheet to mark your own work. Note down any which you didn't spell correctly, and add these to your list to practise next week.																																																		
Topic	<u>Draining the Fens</u>	none required																																																
	1) Follow this link https://www.prickwillowmuseum.com/wind-steam-and-diesel.html then watch the video clip 'Wind, Steam and Diesel' to learn about the different technologies which have been used to drain water from the Fens over time.																																																	
	2) Create a timeline in your home learning book, showing the chronological order of these different technologies. If you listen closely to the video, you should hear some dates mentioned which you can mark on your timeline. You may cut out and stick these pictures onto your timeline, or draw your own sketches of the machines.																																																	
	 Wind pumps  Electric pumps  Diesel pumps  Steam pumps																																																	

	<u>Extension activities:</u> 1) See if you can add anything else to your timeline. You might want to research important events in Britain which happened over this period of time, or add in other important developments in technology (e.g. the invention of the railways). 2) Find out a little bit more about how the different pumps work. You could start by exploring this page on the Prickwillow Museum website: https://www.prickwillowmuseum.com/engineering.html	
Numeracy	<u>Times table check and problem solving challenge</u> <u>A) Times table check:</u> 1) Carry out the 5 $\times$ table check at the bottom of this sheet and time how long it takes you to complete. 2) Mark your answers using the answers at the very bottom of this sheet. 3) Please submit your score (out of 24) along with the time taken to Miss Nairac. <u>B) Problem Solving Challenge</u> Money Bags Age 5 to 11 ★★ Ram divided 15 pennies among four small bags.  He labelled each bag with the number of pennies inside it. He could then pay any sum of money from 1p to 15p without opening any bag. How many pennies did Ram put in each bag? If you would like help getting started, follow this link https://nrich.maths.org/1116 and click on the 'getting started' tab. There is also a 'solution' tab which offers some nice ideas of how you can help to visualise the numbers involved using everyday materials.	Please email a copy of your work to the email address above
